**From:** Wayne Hedberg  
**To:** TGallego  
**Date:** 8/1/96  
**Subject:** Western Clay Deadline - Hebe Gypsum Mine (S/015/072)

I called Neal Mortensen of Western Clay today to ask why we hadn't received a written response to the conditions outlined in our July 9, 1996 letter by the July 26, 1996 deadline. He indicated he had been focusing his efforts on complying with the BLM's recent noncompliance concerns and just "blew-it" in responding to our request. He apologized and indicated he would fax a written response to our office tomorrow.

He also indicated that he has received the large mining permitting information back from their consultants. He stated he would be meeting on Monday with his engineer to finalize maps and assemble the LMO notice for submittal to DOGM by our August 10th deadline.

A copy of this note will be sent to the mine file. - S/015/072
